OBJECTIVE:

The objective of the workshop is to determine the funding source, amount, and financial capability of the Local Government Unit (LGU) through the Local Development Investment Program (LDIP).

PARTICIPANTS:

Participants include members of the sectoral committees: 10 members for social sector, 8 members for economic sector, 8 members for infrastructure, 10 for the environment, and 10 members for the institutional sector, with a total of 46 participants.

ACTIVITY:

Last November 5, 2019, the Local Development Investment Program was formulated with the collective efforts from different office heads, planning team, local chief executive, and other representatives from concerned group and office. The objective of the workshop is to determine the financial capability of the municipality through the LDIP. Initially, the workshop was prompted by the designation of funds, funding source, implementation period, and amount per project on the ranked list. Subsequent to these, the PPAs were grouped according to the date of implementation; hence, the PPAs were clustered according to the two three-year LDIP forms. Afterwards, the amount on each PPA was broken down into three categories, namely: personal services, maintenance and other operating expenses, and capital outlay. These categories determined how much of the amount will be funded by the LGU and how much will be outsourced from different agencies, nongovernment organizations, and other funding bodies. Thus, the Local Development Investment Program was derived for the years 2020 to 2022 and 2023 to 2025.
